Reduces compliance cost drastically

Cloud Solution Architecture

Innovative and Reliable IT Solutions

A Tradition of more than 3 Decades

Compserv Consultants Pvt. Ltd. (CCPL) is an IT Services provider. We implement innovative and sustaining IT solutions for Manufacturing Industries which enables them to save skilled man-hours and achieve optimum utilization of their resources using most efficient technologies, methods and processes through our **ERP solution B Ways**.

At **Compserv**, We establish a transparent and long-term relationship with our clients. We believe every process holds the key to improving organizational efficiency. Our streamlined methodology and process-driven approach ensure the smooth implementation of our IT solutions which exceed the client's expectations.

Promoters and Board of Directors

Technically and Professionally Sound Team

Lekhpal Fintech Pvt. Ltd. (a group of Finance and IT Professionals), will be a marketing forum for "**Compserv**" Products. "Lekhpal" group will be a catalyst between end user and "**Compserv**" products for smooth understanding of client requirements and converting them into solutions.

Promoters	Profession	Experience (Yrs.)

Vinay Gupte	IT Professional	30
Yogesh Sardal	IT Professional	20
Shashikant Khot	IT Professional	20

Directors	Profession	Experience (Yrs.)
Sachin Vora	Entrepreneur	18
Shirish Karnik	Entrepreneur	35
Dilip Deshpande	Management Consultant	35

Core Group of the Company includes team of Chartered Accountants, Actual Users of Compserv Products and Business owners.

A Need of the Hour

Moving from a Customised Solutions to Standard / Semi Customised Business Solution

Till introduction of GST in July 2017, Compserv group was focussed on customised solutions to various business and manufacturing segments in Kolhapur Region. The reason was obvious ERP / Finance solutions were based on Statewise / Citywise taxation and Excise compliance. After the introduction of GST-One Nation, One Tax concept, Compserv developed ready to use / plug in type business software to address various limitations in existing softwares.

The efforts of 3 years, could see a light, **when Lekhpal & EFS cloud based softwares** were developed based on 25 years of experience in ERP. These 2 softwares are Cloud Based and serve the purpose of "**Work from Home**", apart from many more competitive advantages over existing softwares. Lekhpal Fintech Pvt. Ltd. is formed to cater Marketing Requirement of these softwares with the help of team of professionals from Finance, Actual User Business owners. In fact almost all core team members of Lekhpal Fintech are Compserv ERP customers, who endorsed their faith in the technology, promoters.

Today with requirements of real time implementation of GST related submissions like E-WAY BILL, E-INVOICING, MONTHLY RETURNS, MONTHLY RECONCILIATIONS of GSTR 2.

Further, GST Annual Return (GSTR-9) is a complex on line activity that needs strong support of system generated data. GST tax assessment will be seamless with uniform system generated data which is the key feature of **LEKHAPAL**.

All **CompServ** Solutions (**LEKHAPAL, EFS, ERP**) simplify the entire process and ensure data accuracy. It is obvious that **data handling at multiple levels, create vulnerable data**. A system generated data report is more reliable and dependable for tax compliances. This need has been addressed in all the softwares of **CompServ**.

Data migration from other ERP models like ORACLE, SAP

Recently at Pune based Maruti Dealership data of "DMS" (Dealer Management System) at different locations in single GST number was successfully migrated on trial basis to enable them for GST Compliance and Accounting requirements. This will enable CompServ Group to explore this solution (EFS) at car dealerships and 2 wheeler dealerships in near future.

ERP installations

Segment	No. of Installations	Few Names
